

We are excited to announce that we will be presenting at the upcoming **ISMRM-SCMR Workshop** on **January 30, 2025**! This special educational session will focus on the **Demonstration of Software Packages for Cardiac Motion and Strain Analysis by Industry**.

Event Details:

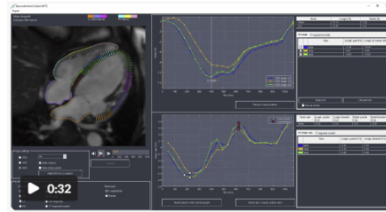

Date: Thursday, January 30th, 2025

Time: 7:00 AM – 8:00 AM (East Coast USA Time)

Place: Washington DC, US

Location: Blue Room, ISMRM-SCMR Workshop

In the session, we will showcase our latest advancements in strain analysis software, providing insights into how these tools can improve clinical practice and research. More information of the event is found on [SCMR website](#).

Click on the the image above to see a short presentation of strain analysis in Segment. More information about the Strain analysis module on our [website](#).

We would love to have you join us at this exciting event and explore how our solutions can support your work in the field of cardiac MR analysis.

With best regards,
Karolina
