Medviso at EuroCMR

Medviso will attend EuroCMR 15th Annual Scientific Sessions in Prague in May 25-27 2017. You will find us as exhibitor in booth number 16 and at the Face off session on Thursday 13:30.

MEET WITH US

If you are attending the EuroCMR meeting please come by our booth number 16. We will present our research software Segment, our clinical software Segment CMR, and our Strain analysis module.

STRAIN ANALYSIS MODULE

Medviso provide a complete Strain analysis module for both clinical use and research purposes. The module enables Strain analysis from both MR Tagging images and MR Cine images, and analyzes both short-axis and long-axis image stacks and both LV and RV strain. You can read more about the Strain module on our website (http://medviso.com/products/strain/). If you are interested in testing the module please come by our booth at EuroCMR or send an email to sales@medviso.com.

SEGMENT CMR

Segment CMR is a complete image analysis solution for clinical CMR. It includes all features necessary for clinical CMR, such as functional analysis, valve analysis, viability analysis and advanced reporting. Segment CMR is designed to be simple to use and with a daily clinical workflow in mind. Segment CMR bears the CE marking of conformity and is FDA 510(k). You can read more about Segment CMR on our website (http://medviso.com/products/cmr/).

SEGMENT NEWSLETTER

You are receiving this newsletter since you are registered as a user of the medical image analysis software Segment. The software Segment is brought to you by Medviso AB in close collaboration with Lund Cardiac MR Group, Lund University, Sweden and Region of Scania, Skåne University Hospital. Segment is freely available for research purposes, provided that you properly refer to the software according to instructions on http://medviso.com/research/how-to-refer/

Best regards
Helen Fransson, CEO Medviso AB
